

Eons before the birth of the Roman Empire, there was a civilization dedicated to the sciences of earth, sea, and sky. In the City of Light lived people who made dark plans to lay waste to their uncivilized neighbors using the very power of the planet itself. As the great science of their time was brought to bear on the invading hordes, hell was set loose on Earth. And the civilization of Atlantis disappeared in a suicidal storm of fire and water. Now history threatens to repeat itself. The great weapon of the Ancients has been discovered in the South Pacific, and it is being deciphered by men of hatred who want to unleash hell on Earth once again. This time, it's up to the Major Jack Collins and the Event Group—comprised of the nation's most brilliant minds in the fields of science, philosophy, and the military—to find the truth behind the world's greatest unsolved myths—to end the cycle of destruction. Meanwhile, the seas rise, the earth cracks, and entire cities crumble to dust as the evil plan mapped out thousands of years before begins to take shape.
