

After decades of being banished from residential areas, water is now becoming an increasingly significant feature in urban design. Whether it is the integration of natural water courses into the built environment, rainwater management, the incorporation of water elements in urban areas for climatic purposes or the creation of oases of tranquility or drama such as pools or fountains all these aspects are not only encountering renewed interest among architects and urban planners, but they are also greeted with appreciation by the general public. This book reveals the wide variety of possibilities for using water as a creative element in the city, in art, in the landscape and architecture. The works are organized in seven categories and encompass large-scale masterplans, urban plazas and parks, river restorations but also interior design schemes and art objects. Amongst the works documented are the landscape design for Dubai Business Park, a river restoration in Bishan Park in Singapore, landscaping for a new town in Tianjin, China, the schemes for Telecom Park, Taipei and Vuores Central Park in Tampere, Finland, and the design for Civic Square Seattle. Nach Jahrzehnten der Verdrängung von Wasser aus dem Siedlungsraum ist dieses in den vergangenen Jahren verstärkt zum gestalterischen Thema geworden. Die Integration natürlicher Wasserläufe in die bebauten Umgebung, die Klimatisierung von Stadträumen durch Wasserskulpturen, aber auch die Schaffung von Ruhe- oder Erlebnisorten wie Brunnen und Bassins stoßen nicht nur bei Architekten und Stadtplanern auf Interesse, sondern werden auch in der Öffentlichkeit beachtet. Dieses Buch zeigt in thematischer Ordnung von der großflächigen Landschaftsplanung über die Stadtraumgestaltung bis zum Kunstobjekt - die vielfältigen Möglichkeiten der kreativen Arbeit mit Wasser in der Stadt, Kunst, Landschaft und Architektur. Die dokumentierten Arbeiten umfassen u.a.

The Cristiano Ronaldo Handbook - Everything You Need To Know About Cristiano Ronaldo, Starfish, Jellyfish and the Order of Life: Issues of Nineteenth-Century Science (History of Science & Medicine), Ontario Hydro at the Millennium: Has Monopolys Moment Passed?, If I May, Leadership : research findings, practice, and skills,
