

From New York Times bestselling author Sam Kean comes more incredible stories of science, history, language, and music, as told by our own DNA. In *The Disappearing Spoon*, bestselling author Sam Kean unlocked the mysteries of the periodic table. In *THE VIOLINISTS THUMB*, he explores the wonders of the magical building block of life: DNA. There are genes to explain crazy cat ladies, why other people have no fingerprints, and why some people survive nuclear bombs. Genes illuminate everything from JFK's bronze skin (it wasn't a tan) to Einstein's genius. They prove that Neanderthals and humans bred thousands of years more recently than any of us would feel comfortable thinking. They can even allow some people, because of the exceptional flexibility of their thumbs and fingers, to become truly singular violinists. Kean's vibrant storytelling once again makes science entertaining, explaining human history and whimsy while showing how DNA will influence our species' future.

Akiko: *The Training Master, The Position of the Laborer in a System of Nationalism: A Study in the Labor Theories of the Later English Mercantilists*, Bibliographical references in veterinary scientific publications, *Physics and Astronomy of the Moon*; *Archaeology in South Yorkshire 2005-2007: No. 13: A Review of Archaeology in South Yorkshire*, *Harry Potter and the Sorcerer's Stone LitPlan Teacher Pack (Print Copy)*, *PEAS and ACACIAS OF WESTERN AUSTRALIA*, *Charleston Jenkins: A South Carolina Jenkins Family Tree*, *Doris Day, Islands (Images (Silver Burdett Press Hardcover))*,
